REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner has withdrawn the outstanding rejection of claims 1 and 8 over EP '979 and JP '696 with or without Suzuki. Although EP '979 and Suzuki did teach the presence of a clamp means, the clamp means in each case would appear to be present to prevent the feedback controlled voltage going to pump cells from exceeding a given voltage. However, the second oxygen pump cell of EP '979 is not feedback controlled in the manner that the first pump cell of EP '979 or the pump cell of Suzuki is. Rather the voltage for the second pump cell of EP '979 is controlled to be at a set constant voltage, and JP '696 utilizes two different set constant voltages. Because there is no feedback control of these voltages and hence no danger of the feedback control system applying excessive voltages, there is no motivation for relying on the clamp scheme of the pump cell of Suzuki or the first pump cell of EP '979 for EP '979's second pump cell. Claims 1-10 are thereby allowed. Claim 11 is allowed for the reasons set forth in the previous office action for claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kaj Olsen whose telephone number is (571) 272-1344. The examiner can normally be reached on Monday through Friday from 8:00 A.M. to 4:30 P.M..
